

Social story for change of setting (mainstream)

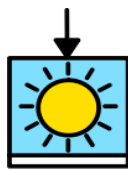

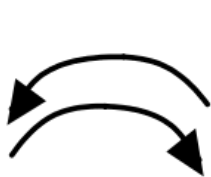

My name is _____. I am in _____ class at _____ school.

Sometimes adults need to make plans to keep us all healthy and safe.

This might mean my school day has changed today/this week and I am in a different class/school. It will look different but this is OK.

My usual friends might not be in school but they are safe.

A different adult might help me today and this is OK. I can still play (learn) and be with adults who will look after me.
